**Mastercard Innovation Challenge @ GFF 2026**

Aug 10, 9:00 AM GMT+5:30 · Online

**Mastercard AI Garage**

Dear Participant,

Thanks for registering for the Mastercard Innovation Challenge @ GFF 2026 - AI Defense Lab for Payment Security!

GENTLE REMINDER - Please join the competition on Kaggle if you haven't already and start forming your team (1-5 members) so you're ready to build your solution.

Join here: [Mastercard Innovation Challenge](#)

IF YOU HAVE ALREADY JOINED:

Bring any questions you have to our Kaggle discussion [thread](#). Here are the things you'll be submitting as part of your solution:

- A word document (.docx) that explains your solution in the file upload field.
- A link to your code, hosted on GitHub.
- A working web-based prototype with a presentable UI that demonstrates your solution.

SUBMISSION GUIDELINES:

Please follow these guidelines so that we can identify and score your submissions accurately. Failure to do so could result in disqualification.

- **Team:** If you are working as a team, please [Team Up](#) on Kaggle; do not submit individually on behalf of your team. In the project description, list all team members' full names and the email IDs used to register for the event.
- **Document:** Name the file as *TeamName.docx* where *TeamName* is the name of your team on Kaggle. Verify the team name under "Team" section on the competition page.
- **Code:** Upload your code to GitHub as a public repository and name it *TeamName* as well (e.g. [github.com/.../TeamName](#)).
- **Registration:** All the team members must be registered on [Luma](#) to be considered for evaluation and cash prizes.

Regards,

Team Mastercard Innovation Challenge
